

From: Society of Exploration Geophysicists Annual Meeting 2019 onbehalfof@abstractcentral.com
Subject: SEG2019: Presenter Acceptance Notification
Date: June 26, 2019 at 12:07 PM
To: Weglein, Arthur B aweglein@Central.UH.EDU

Dear Dr. Arthur Weglein,

Congratulations! The 2019 Technical Program Committee has chosen your paper, "A new multidimensional method that eliminates internal multiples that interfere with primaries, without damaging the primary, without knowledge of subsurface properties, for off-shore and on-shore conventional and unconventional plays", to be presented at SEG's International Exposition and 89th Annual Meeting in San Antonio, Texas. This year's committee received a high number of abstract submissions. Each abstract was reviewed by multiple individuals with expertise in the appropriate area of geophysics and was rated on submitted text and accompanying figures per the judging form provided in the Abstract Kit. The reviewers think your abstract represents a significant technical contribution that will interest many Society members.

The Committee has arranged the presentations into sessions with a specific theme and focus. Your paper has been included in the following:

Session Style: PC-Based Oral Presentation
Session ID: SPMNR 2
Session Title: Multiples - Theoretical and Practical Advances
Presentation Date and Time: September 17, 2019 from 3:30 PM to 3:55 PM
Session Room: 304B, in the Henry B. Gonzalez Convention Center

Your paper is scheduled for a 20-minute oral presentation, which includes questions and answers.

The entire SEG San Antonio Technical Program will be posted online at <http://seg.org/am/techprog> late August/early September and I encourage you to review the other papers in your session.

Please review the Speaker Kit webpage at <http://seg.org/am/speakerkit>. All oral presentations will be shown in high definition and this page contains guidelines for preparing your presentation as such. Information regarding the Meet and Greet (replacing the Speaker Breakfast), sample judging evaluation questions, tips for presenting your paper, and other pertinent information is also found in the Speaker Kit. There is also a high definition presentation template you may download for your presentation if you like. If there are additional authors/speakers for your presentation, please forward this e-mail to them in case they should need to reference this information.

Please note that per SEG policy, travel expenses and registration fees for attending the meeting are the Speaker's responsibility; however, once you have accepted our offer to present, you are obligated to show up at the assigned time to give your presentation. Authors who do not show up disrupt the flow of the session, do a disservice to other speakers and the audience, and complicate coordination with other technical sessions. SEG will continue to implement a No Show Policy. This policy is described in the Speaker Notes on the Speaker Kit webpage. If you are unable to show up at your designated presentation time, please inform the SEG Education and Meeting Manager at techprog@seg.org as soon as you are aware of the problem, and before 22 July 2019, in order to avoid being placed on the 2019 No-Show List.

We encourage all speakers to register online by the early bird deadline where you can save up to \$245 by registering on or before 30 July (11:59 PM CDT). Once your registration is complete, don't forget to book hotel accommodations to secure the lowest price available.

For those traveling to the United States from abroad, we strongly recommend starting your visa application process early, as it may take several weeks or months, depending on your country of origin. Following the accept and decline invitation deadline of 5 June, you will receive an email to access a personalized speaker invitation letter to support your visa application. In addition, please visit <https://seg.org/Annual-Meeting-2019/Attend/Visa-Information> for more information.

Thank you for submitting your work for the Technical Program at the 2019 SEG Annual Meeting. Your inclusion will help make SEG's Annual Meeting a significant learning experience for everyone. Don't forget to pick up your Speaker ribbon in the Speaker Ready Room. You will need this letter to retrieve your ribbon.

Sincerely,

Dimitri Bevc, Ph.D.
Technical Program Chair
