

**Subject:** Attached please find the slides for a key note presentation at the ' Multiples' SEG Workshop W-4 on Thursday Oct. 18, Warmest best regards, Arthur

**Date:** Wednesday, February 20, 2019 at 4:24:55 PM Central Standard Time

**To:** Weglein, Arthur B

**Attachments:** weglein-thursday-v12.pdf, JSE-Qcompensation 18-10-11.docx, Ecopetrol invited paper for Special Issue on Seismic Migration and Inversion-ABWeglein-18-08-14.pdf, Weglein\_etal\_SEG2016\_The first migration method that is equally effective for all acquired frequencies for imaging and inverting at the target and reservoir.pdf

Dear Sponsors , Colleagues and Friends,  
I am deeply honored and very pleased to have received the invitation from the 2018 SEG Technical Committee and the Organizers of the Post-Convention Workshop, W-4 ‘The Business Value of Multiple Identification and Removal: Status , Challenges and the Road Ahead’ to be held on Thursday October 18. Attached for your possible interest please find the slides for that presentation. I hope that you find the presentation informative, interesting and worthwhile. I’ve attached a few references that are related to ( and might be useful background for ) the topics in this address.

Again I am grateful for this opportunity from the 2018 SEG Technical Committee and the W-4 Workshop Organizers – and thank our sponsors for their constant encouragement and strong support.  
Warmest best regards,  
Arthur
